

Contribution Log

Team Contribution Matrix :

Member	Role	Responsibilities	Contribution Status
Member 1	Data Engineer	Data Cleaning, Missing Value Handling, RFM Analysis	Completed
Member 2	Feature Engineer	Feature Engineering, Scaling, Pipeline Creation	Completed
Member 3	ML Engineer (Clustering)	PCA, K-Means / DBSCAN, Customer Segmentation	Completed
Member 4	ML Engineer (Forecasting & Anomaly Detection)	Isolation Forest, ARIMA, Prophet, Evaluation Metrics (RMSE, MAPE)	Completed
Member 5	Integration & Analyst	GitHub Setup, Notebook Integration, Time-Series Analysis, Business Insights, Final Report, Contribution Management	Completed

Peer Review Summary :

Member	Reviewed By	Notes
Member 1	Member 5	Verified preprocessing logic and RFM correctness
Member 2	Member 5	Checked feature engineering pipeline consistency
Member 3	Member 5	Validated clustering output and silhouette score
Member 4	Member 5	Verified forecasting models and anomaly detection results
Member 5	Self + Team	Final integration and notebook validation
